

The Fiverr Domination Formula

A Step By Step Guide of Making Money on Fiverr

Build a Successful Gigs Dominate the Market and Make More Than \$2500 Month After Month

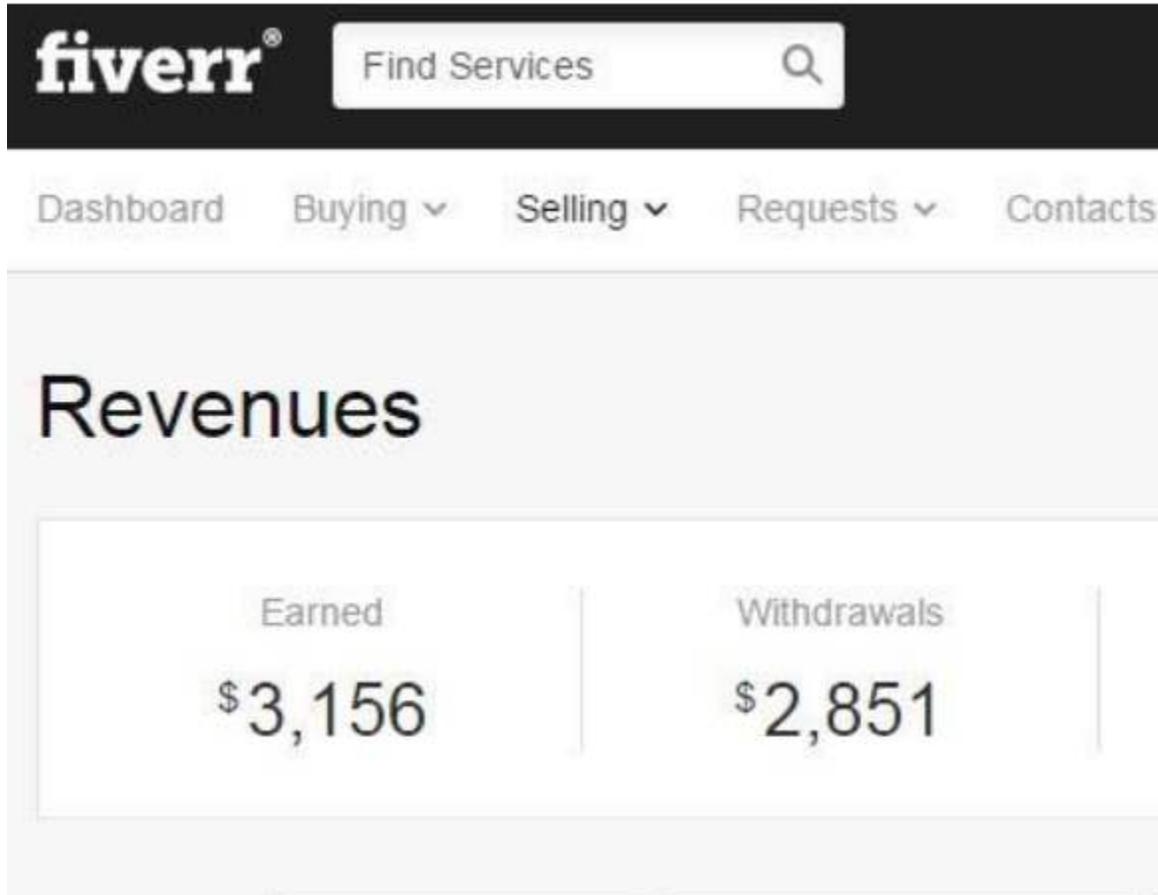

Written By
Shan Din

Read it Twice | Take Notes | Take Action | Make Money

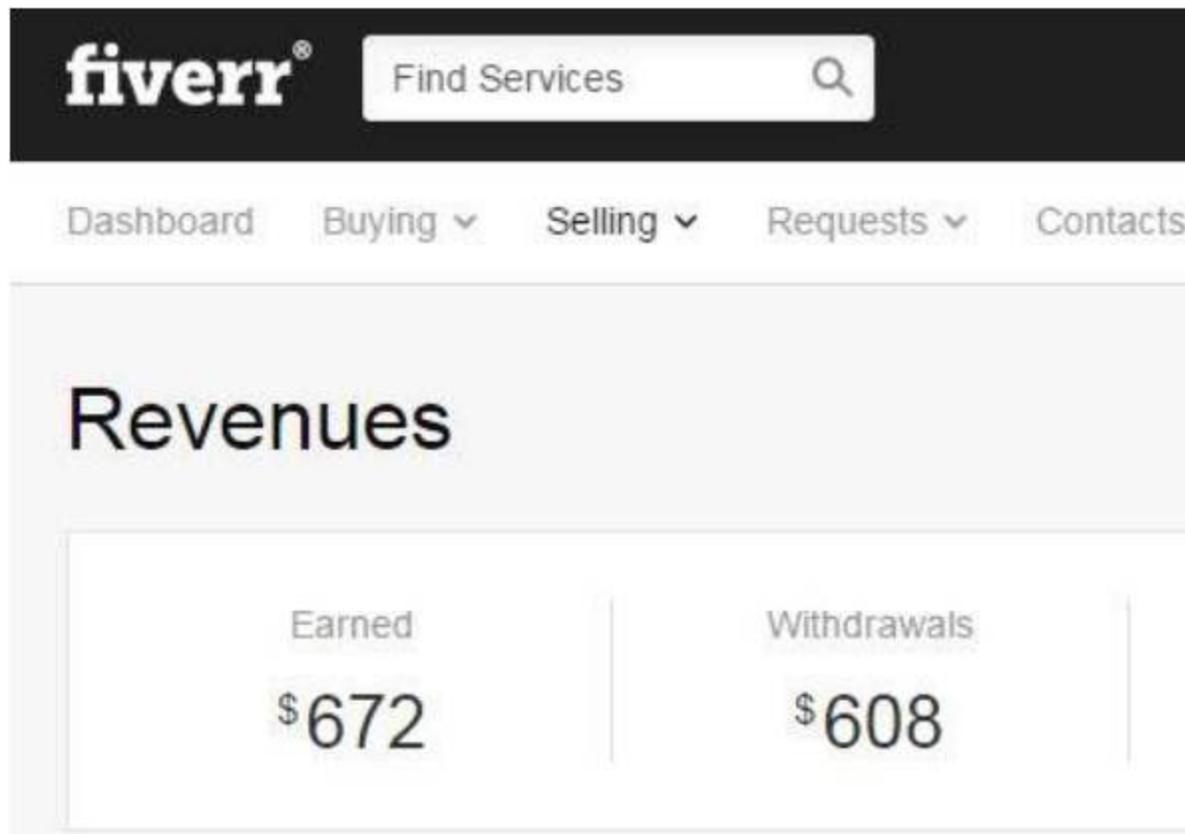

Warning-Disclaimer

Every Author seems to mention in their ebooks that the purpose of their ebook is to educate and entertain others but unlike the conventional wisdom I will politely request that if you follow the techniques and instructions mentioned in this eBook you will succeed Period! You Must Take a Meaningful action to make it happen!

Before We Start Let's Begin with the screen shot of my Fiverr Revenue.

2nd Account

PS: I will advise you to never ever open a 2nd fiverr account because this is against fiverr terms and services and your accounts can be terminated.

I learned the hard way and I don't want you to make the same mistake. Fiverr is a virtual market place for ideas and goodwill and it is very easy to use.

Once you figure out the whole system you are bound to make money with fiverr.

This eBook will help you to not only figure out the fiverr System and dominate it but will also give you the competitive edge over other sellers who are currently operating on fiverr and not making any money.

I want you to get excited because you are about to enter into the new phase of Money Making opportunities which was not available before.

Overview of the Market and Buyers

As a seller on fiverr you will meet different kinds of buyers and sometimes it will be difficult to understand their point of view.

In this chapter I will introduce you to the concept of fiverr buyers and what they expect from you when they join the fiverr vibrant community.

Types of Buyers: Local or Small Businesses Buyers:

They are the best buyer you will ever encounter on fiverr because of the simple fact that they charge more money from their clients to get service done from you and they just play as a middle man to make money.

And they will also buy your gig extras without any hesitation since they are getting paid a decent amount from the original

buyer of the service.

And they always leave great reviews for your service.

Give them high-quality work and great customer service and you will have long term buyers knocking your door at the speed of a modern airplane.

Polite Buyers: As far as my experience is concerned, fiverr marketplace is full of great quality buyers .

They visit fiverr with one thing in mind that to get the quality work done at a decent price.

Polite Buyers will have a great communication with you from the beginning to the end and they understand that the service they are getting for \$5 and they will never give you any headache.

One of the reasons I mentioned about polite buyers is that they will even leave a Tip for you for your services.

Because they appreciate your quality work and customer service and they clearly understand that the service they got for \$5 will never get from anywhere else

So overall they appreciate the marketplace and they most

definitely appreciate the sellers as well

Objective Buyers:

They are the kind of buyers who treat fiverr like any other freelancing websites and they will contact you before placing an order and they will be pretty upfront about their requirements and the price of the gig. That gives you the opportunity to provide them extra work and charge them more money for your services.

Trouble Buyers:

Even though these kinds of buyers are exceptions compared to all the good buyers on fiverr marketplace, it is a fact that they do exist and they will annoy the hell out of you.

These kinds of buyers think that after paying \$5 they can ask you to do anything for them. They will complain a lot and they will ask you to provide endless revision of their work.

The Solution:

If you encounter a buyer who is annoying and fits the description I have mentioned above, simply cancel the order. Don't please them otherwise they will become consistent and it will only hurt your business and your fiverr account.

Word of Advice:

Even though I will be covering that in later chapter but I would like to mention that always write compelling and to-the-point description of your gig Because some time new buyers will not read your gig description and place an order only to find out later that you will not be doing that extra work they are asking

Compelling and detailed description of your gig will save your life on fiverr and get you on fast track for more and repeat orders.

Fiverr Domination Factors:

According to my experience if you want to dominate on fiverr you should know the important statistics for your buyer's info. You will get a huge benefit by knowing where your buyers are coming from...

The Top countries where the buyers come from:

U.S.A. 55% to 75% sales come from US based buyers. U.K. 18% to 22% sales comes from UK based buyers. Canada, New Zealand, Australia have approximately 10% to 12% buyers share.

The other countries have a very small percentage of buyers. Now you know the market of the buyers...it will be easy for you to create a gig that will appeal and attract buyers from these

top countries.

Levels of Greatness :)

Fiverr has introduced different levels for sellers to give each seller a sense of accomplishment once they hit a certain level and of course there are a number of goals to be achieved in order to get the certain levels.

Let's dive in

Levels give a huge opportunity for sellers to make more money on each order. There are currently 3 levels for Fiverr Sellers

Level 1:

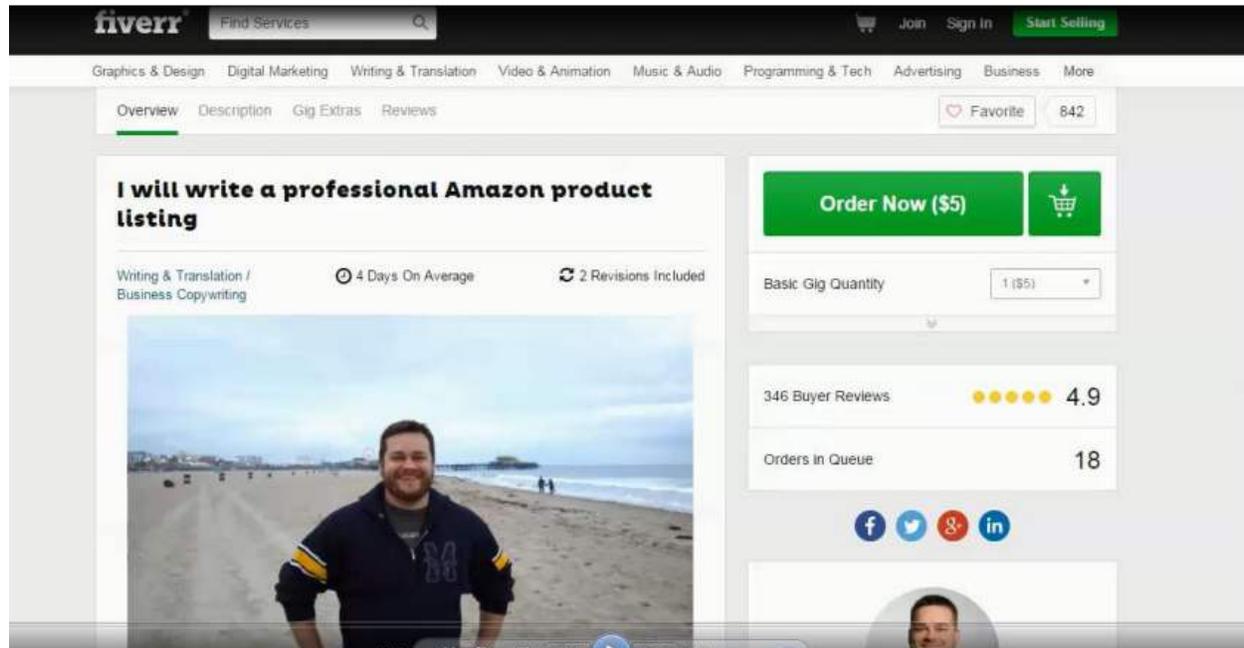

This is the easiest level to achieve as a fiverr seller You will need to make 10 sales and have a positive feedback associated to your account and you will achieve the level 1 seller badge

Once you receive the Level 1 badge you can offer 2 extra's up to \$20 more for your account and plus an extra fast delivery option.

Note: This is the new version of this guide so a lot has changed on fiverr but common grounds and structure are the same.

I shoot a quick video to show you in real time how levels can change your account overall authority.

Click on the image below to watch the video

Once you become the level 1 seller you will gain more respect and definitely it will increase the trust in buyer's eyes and you will start getting orders quite rapidly.

Knowledge Base:

I want you to know that levels are (Automated) except Top Rated Sellers so if you just starting out and have manage to deliver 10 sales and have positive rating and if you still did not get the level one seller promotion ..Than right away contact the fiverr support team and they will manually approve you as a level 1 seller.

Level 2:

Manage 50 orders in 2 months and you will be crowned as a level 2 seller which will give you real respect and obviously more orders at the same time.

Top Rated Seller:

To get to that level you need to have consistent orders under your belt which is not hard at all once you become level 2 seller and have positive rating orders will be knocking your door off the hook.

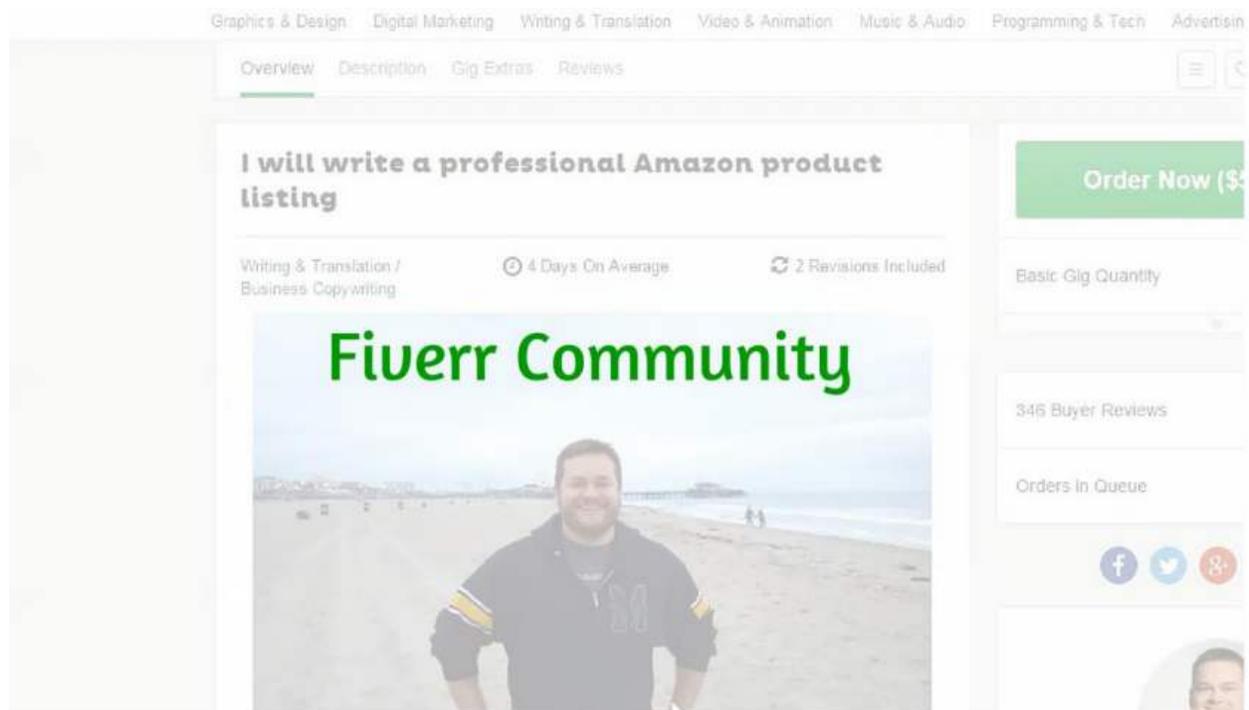

You can always send an email to fiverr support staff to review your account to promote you as a Top Rated Seller.

Word of advice:

In order to become a Top Rated Seller you must be an active member of the fiverr community.

I shoot a quick video to demonstrate how to participate as an active member of the fiverr community.

Click on the image below to Watch the Video

Setting Up Your Account to Dominate

Even though it is a simple plug and play to register with fiverr, I want you to consider my advice and you will dominate in the long run.

When you set up your account with fiverr I want you to consider using a nickname which is relevant to your gigs.

Let's say you are going to offer web design service you might want to choose your user name as Creative Web Design or Professional Web Design it will give you more credibility in the eyes of buyers and if someone searching for web designer on fiverr you will show up on top of search results that will give

you extra edge to secure more orders as compare to anyone who is using a random nickname for **their accounts**

Choose a good Profile Picture for your account.

You can simply choose your picture or your company logo.

If you do not have any logo that can represent your fiverr business account then simply choose one of the fiverr logo designers and pay just \$5 to have it created for you.

Remember First professional impression will give you the competitive edge over other fiverr sellers who are not doing enough to stand out to make a lasting impression.

Word of Advice:

Most sellers do not even write their About Page.

I want you to consider writing your about page in a professional manner and use that page to give your audience the taste of your personality and most importantly your services.

Introduce yourself and explain why you are the best choice for that service as compared to other sellers in the market.

Here are some samples of classic looking fiverr profiles.

[Cwiney](#)

[Alinam1](#)

Ready To Make Money Let's Dive In...

In this section I will introduce you to the idea of selling. You can literally sell anything on fiverr.

I believe everyone has a skill or passion which can be transformed into paying service.

But regardless of your passion or skill I will introduce you to the simple gigs that can be created easily and start making money for you.

Word of Advice: Create a gig of your skill to start with and down the road you can learn more skills and plugin more gigs into your account to bring phenomenal cash into your bank account.

If you feel a lack of confidence for your skill no problem you have my back ...let me show you the true art of selling on fiverr.

Graphic Design:

Graphic design category is the most popular in logo design

eBook covers and banners design.

If you want to sell in the Graphic design category I would recommend you to become an expert in Photoshop and as far as earning is concerned sky is the limit.

How to Develop a Graphic Design Skill: In this section I am going to help you out to develop a graphic design skill so you can build your profile and become an expert in that field to dominate in this profitable category on Fiverr.

I am going to suggest some free resources. You can watch the free resources videos and get basic fundamentals right and then practice and become an expert in the field.

[Nik](#)

Writing & Translation:

Writing and translation category is in great demand and has great potential for huge profit.

You can simply proofread the document, write a resume , create contents and if you are bilingual you can simply offer translation service and you will never be out of order.

Another great thing about the category is the potential of repeat business.

People always need content translation and proofreading so this could be the game changer of any writer who wants to create a small fortune using fiverr.

If you use a PC all you need is Microsoft Word or Notepad to write contents. And if you are a mac user then mac pages will do a great job for you.

And if you have none of those open office will do the job just fine so there is no shortage of tools when it comes to writing.

Another Free tool I will recommend is [Grammarly](#). It is a very helpful tool to check your grammar easily and it will save you a lot of time as well.

How to Develop a Writing Skill:

In this Section I am going to help you to develop a writing and translation skill Although some people just have the passion of writing but it does not mean that writing skill can't be learn

Below I am going to suggest some resources that will make you from ordinary writer to an expert writer in decent time and I can virtually guarantee you that by improving the skill of writing will pay huge reward for many years to come.

Programming & Tech

One of the most profitable niches in this category is WordPress related services.

So many people have different issues with their WordPress websites. People need help to fix their WordPress related

issues and even create and update their WordPress blogs as well.

There is so much potential in this category and some sellers are really killing it by offering WordPress related services.

If you are new to WordPress and thinking about creating your own WordPress gig then you should spend some time on YouTube and watch all the related tutorials specific to WordPress.

If you dedicate yourself and work hard and watch all the relevant tutorials on YouTube then within 1 week you will be ready to launch a killer WordPress related gig on fiverr that will bring you money for many years to come.

How to Develop a Programming & Tech Skill:

In this section I am going to help you out by laying down the fundamentals of training to develop a tech skill that can eventually become one of the most profitable gigs on Fiverr.

As usual there will be some free and paid resources available in this section and I want you to take advantage of these resources so you can master the skill and enter in Fiverr Arena with a Bang.

Business Category

In the Business category you can offer people business names, tag names, domain name research, branding services, virtual assistance, business tips and business plans.

If you are good at writing then the business category can be a gold mine for you.

You don't really need any special tools to fulfill your orders in this category. All you need is thoughtful mind and some writing skills to take over the niche

Quick Gig Idea

In business category you can create a quick gig that can bring exceptional amount of money.

The gig title can be "I will make a deep internet research" or anything related to searching on the internet and you won't believe how many people want that service.

To prove my point I am going to provide you the link below for the above mentioned gig idea.

The seller has more than 7400 orders completed.

Check out the link below

[I will make a deep internet research](#)

Online & Digital Marketing:

This is one of the most profitable categories on fiverr and if you dig deeper and create an on demand gig then I can virtually guarantee you that you will start making passive income with just one high demand gig in this golden category.

There are quite a few outstanding gig ideas in that niche such as website traffic, social bookmarking, Facebook likes, and writing scripts for videos. To view the entire list of services you can provide in this category click on the link below

[Click here to view the list of categories](#)

How to Develop a Digital Marketer Skill

Even though you can develop a hands full of skills being a digital marketer but since we are talking about fiverr and there are some digital marketing skills that are totally crushing it on fiverr.

As an example if you create a gig on driving website traffic to your website” it will totally crush it. And if you provide genuine service through this gig I can tell you it will be a killer money maker gig for you.

So in this section I will specifically talk about developing the skill of driving traffic to someone’s website.

Free Resources:

Reddit Traffic 101: How to Drive Insane Traffic with Reddit

Word of Advice

If you are interested in creating a gig in this category I will suggest you to click on Digital Marketing tab on the top of fiverr home page and view the categories one by one and pay attention to the other gigs that has been offered in this

category and then just read what they are offering and provide something similar but with more value compare to what they are offering and set up your gig the right way which you have already learn in this eBook.

Quick Gig Idea:

Here is a quick gig idea which can be created within a few minutes and with little marketing it can start bringing some decent cash.

The quick gig idea I am talking about is “blog commenting” . It is so simple to create and even more simple to deliver.

To prove my point view the image below for the actual gig in action and you will notice that the seller of the gig is providing a blog commenting 423 buyer’s reviews and 17 orders in queue.

Check out below some successful sellers of Digital Marketing Category:

[Jennifer S](#)

[Sarah S](#)

Video & Animation:

I tell you what if you have little passion for acting or you have some video animation software installed on your computer then the video & animation category can be life changing for you.

Video Spokesperson are one of the top ranking gigs from the beginning of the fiverr birth.

Basically you will have to read the script in front of your computer camera or you can even shoot with your phone camera.

Read the script a few times before you record in front of the camera and charge extra if the buyer is requesting an extended version of the video. Always ask the buyer to provide you the script or you can charge extra for writing the script for them.

How to Develop a Video Editing & Video Animation Skill

Even though there is so much you can learn about video editing and video animation, I will specifically give you the

resources that will help you develop a skill that will sell on fiverr like a hot cake.

Checkout below some successful sellers of Video Category

[**Ron Desi**](#)

[**Cathy**](#)

Music & Audio:

Although you can make substantial money by singing & writing songs, even mastering songs for people, the real money is in the voice over category.

Buyer will give you the script and all you have to do is read that script. Make sure you must have a good mic to perform

decent and quality voice over. When you were starting out in that category you can start recording your voice over with your computer mic but as you grow your business buy a decent mic from Amazon to accommodate your customer and provide better quality voice overs.

And you should have basic audio editing software on your computer. I will recommend Free Software like [Audacity](#) to do this.

How to Develop a Voice over Skill

You might have noticed that in the Audio and Music Category I am pointing towards the voice over category instead of music.

Voice Over skills can be learned and implemented quickly and this is the sole reason I want you to stick with this category and another obvious reason to choose Audio category is that insane Money can be made in Voice Over category.

Crafting a Best Selling Gig:

I want you to pay special attention to this section because even if you have something special to sell but you do not know how to present it in front of the right audience and how to actually sell it ...no one will buy it.

Gig Title and description is the most important part of your gig.

Do this right and you are bound to make money with your gig.

Your Gig title and description has a simple purpose to describe your service correctly and efficiently.

Word of Advice: Your Gig Title and description has to be very clear what you are offering...

When a potential buyer visits your gig they should get a clear picture of what you are offering. Write a clear description and benefits for buyers to provide them a clear picture of what you

can or cannot do.

Ask them to contact you first if they have any questions before placing an order. That way you will prevent the order cancellation and bad reviews at the same time. Remember even if the cancellations are mutual that can still do the damage.

Solution:

In order to prevent the cancellation of orders I want you to consider writing clear descriptions in simple formatting.

Use **Bold** to describe what you can or cannot do. Use bullet points to describe the benefits and features you are offering ...

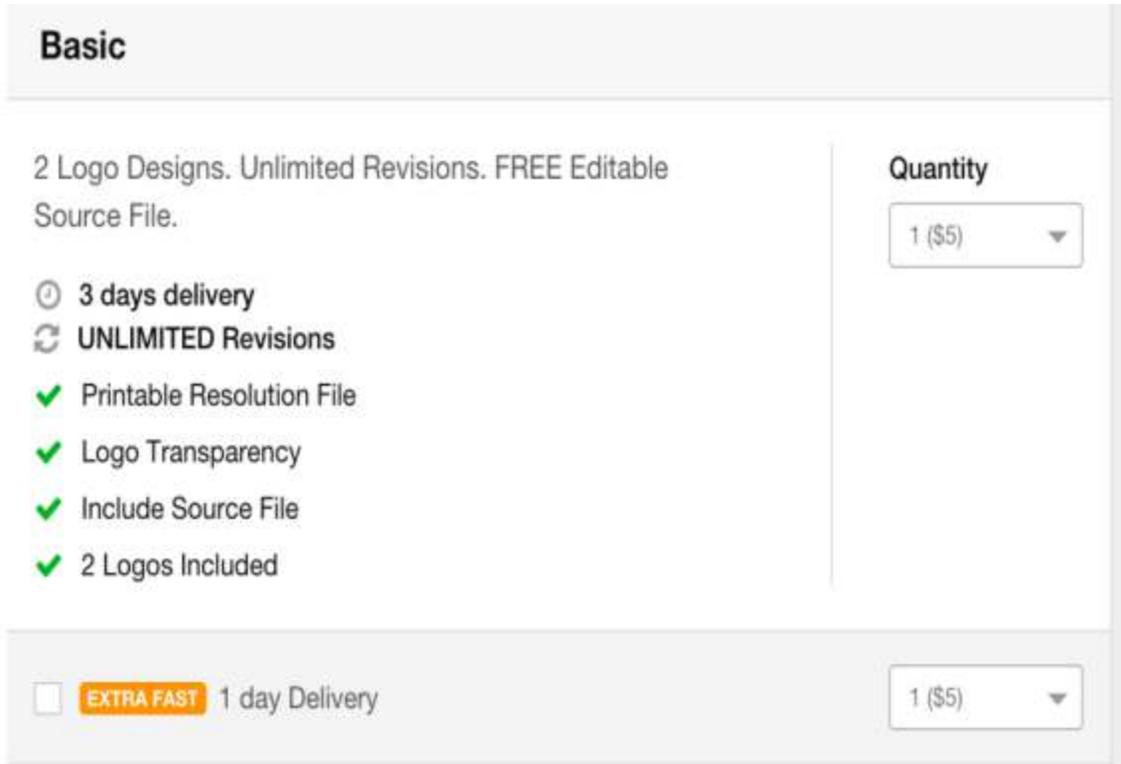

And finally if you are offering extras make sure you mention them in your gig description as well with separate paragraphs for each extra you are offering that way buyers will know up front what else they can get for more money.

Make sure your description in first paragraph should urge buyers to read through your whole description before placing an order ...that way there will be no confusion in their mind before placing an order and both of you “buyer” and “seller” will have the smooth transaction Check it out some of the

perfectly written descriptions to eliminate any confusion in buyers mind

You Must Add a Video to Your Gig

This is the best way to bring your gig on top of recommendations. The fiverr team and editorial staff like videos for each gig represented by video. Your video does not have to be fancy.

All you have to do is explain your services in your video by using the free software on your computers.

All computers have cameras and free video editing software that makes it an easy task for anyone to shoot a quick and upload it.

Windows users have windows movie maker which is free to edit basic video. And mac comes with free video editing software as well.

If you are still having trouble creating your gig video I have some suggestions to make it easier for you.

Use either your computer camera or your phone to create a video. Just explain your services you are going to offer in your gig. Try to use white background in your videos.

Edit your videos in windows movie maker which is free and very easy to use.

Don't be shy in front of the camera you just have to perform once or twice and then with the passage of time the more you will do it the more comfortable you will get.

Add some passion in your videos (don't look bored or low energy in your videos)

At the end of your video ask the viewer to take action and order your gig and give them the guarantee of satisfaction with your services and you are bound to get orders.

Be friendly in your video so the viewer can feel that they are watching one of their friend's videos.

Windows movie makers have some cool effects that can be added in your videos easily to give your videos a professional look.

Word of Advice:

Each time you will upload a video to your gig fiverr, editorial staff will personally review your video before they approve it.

and each time you upload a personalized video explaining your gig services you will have the opportunity to get on top of the recommended section of your desired category.

So always take some time to create a nice looking video for your fiverr gig and you will reap the reward for many years to come.

Below are some samples of easily created gig videos.

[Bob F](#)

[Simplysoccerpro](#)

Providing Your Sample Work

Fiverr always suggests uploading three samples of your work so potential buyers can view your work quality and they will feel more comfortable ordering from you.

According to fiverr 220% more sales has been made by gigs that have their work live samples uploaded. Categories where

you can see the visual aspects of the work such as logo designing, banner creation, video samples, testimonials and almost all kinds of work samples can be uploaded.

Word of Advice: I will advise you to create a simple thank you image for all your order deliveries as well.

Use a free site like <https://www.canva.com> to create a free thank you image illustration for your buyers and every time you deliver your order make sure to send them the customized image to appreciate their order

And ask them that you will be looking forward to future business as well. Being nice and courteous always paid off in big rewards.

Clear Instructions:

As I mentioned before, clear instructions for your buyers in your gig description is one of the most important factors of your gig success.

Even if you have written everything clearly and to the point some buyers tend to miss the key points before ordering your gig which can result in cancellation orders and angry buyers at the same time.

Solution:

While creating your gig, fiverr will give you the opportunity to write instructions for your buyers.

When you receive an order, instructions will be sent to the buyer automatically so you will have another opportunity to give proper instructions to your buyer and give him or her heads up what to expect from you and what exactly you need from them to finish their order in flying colors.

Marketing your gig the Right way

I have seen so many fiverr sellers who did not even think about marketing their gigs.

This is one of the key factors that will set you apart from being really successful on fiverr.

I want you to pay attention to this section so you can continue your domination on fiverr month after month.

Power Tip

You will be competing with so many sellers on fiverr and our goal is to set us apart from that crowd and stand out so we can continue to dominate as a seller. Let's say you are offering logo designing services on fiverr,

I want you to search all the logo designers on fiverr, take a

look at their buyers review and spot all the negative reviews they receive and make sure that you eliminate that negative factor in your service and you will dominate the fiverr community.

Above example is just a sample and you can visit all the sellers gigs who are operating in your niche and take their negative reviews and eliminate those factors from your gig and you will build a long term and lasting impression with each and every buyer and make sure that your buyer will receive the top most service from you.

Word of Advice:

When you get your first order on fiverr, always provide the best service to your buyer and give them the ultimate satisfaction they are looking for.

Hidden Marketing Formula:

After delivering the order you will wait for the buyer's confirmation that either he/she likes your service or not.

If the buyer like your service and gig delivery they will place a positive review on your gig and then you will have the opportunity to do the same for your buyer and as soon as you leave positive feedback for your buyer fiverr will ask you to share your gig to the rest of the world such as Facebook and all the other marketing platforms.

Make sure you take that opportunity and share your services on all the platforms that will give your gigs a real boost in traffic resulting in more views and more sales.

I want you to consider one more factor if you really want to dominate fiverr and make an exceptional amount of money.

Create dedicated social media accounts for your fiverr services.

If you have a Facebook account then create a dedicated Facebook page and showcase all your gigs and services on there.

Over time you will get more and more likes on that page and you will become an authority on your niche resulting in phenomenal sales and your fiverr business will grow each and every day.

Create a dedicated twitter account and showcase your gigs there as well.

Place a new tweet whenever you receive new positive feedback and place a new tweet with your new gigs offers.

Pricing Strategy:

Once you reach level 1 and level 2 you will have the liberty to

offer extras to your buyer as well. I am going to outline a simple and effective strategy to offer extras at a reasonable price that will be tempting for buyers to let it go.

Before you set the price of your extras make sure you research your competition first and analyze what they are charging for their extras.

Charging \$5 or \$10 extra from your competition means that you are offering something well worth the money and your extras are not just there for the sake of making money only but they are there to provide real quality extra work done at a very decent price.

Power Tip: When you are new and you just get to the level 1 badge then you will have to provide extras on a very reasonable and minimum price point.

Provide 2 more extras for each gig \$5 each extra and once you become established and reach at level 2 then you will have more authority and more repeat business to charge more money on extra's.

Offering Express Delivery Good or Bad

According to My experience, providing express delivery is not worth it. Because you want to provide quality work to your

buyers and express delivery will not give you enough time to get it done properly that's why I want you to stay away from express delivery And one more solid reason for not providing express delivery is that your order queue will not look good by providing express delivery as oppose to if you are providing delivery after every 5 days the orders will stack in queue that will be visible for all the potential buyers that will give good indication towards your gig popularity and overall reputation

Getting your Initial Sales:

Making your initial sales are very important because you don't want your gig to look like a ghost town where nobody is visiting your gig page.

I want you to perform a number of tasks to make sure that you get those initial sales to hit the ground running.

One thing is clear that if you have done everything according to my advice then there is no way that you will not start receiving the orders right away.

Sometimes it takes days to get the first orders but once you get your first order then you have all the opportunity in the world to prove yourself and after that rest will be history.

I have done something tricky to collect my first orders right away

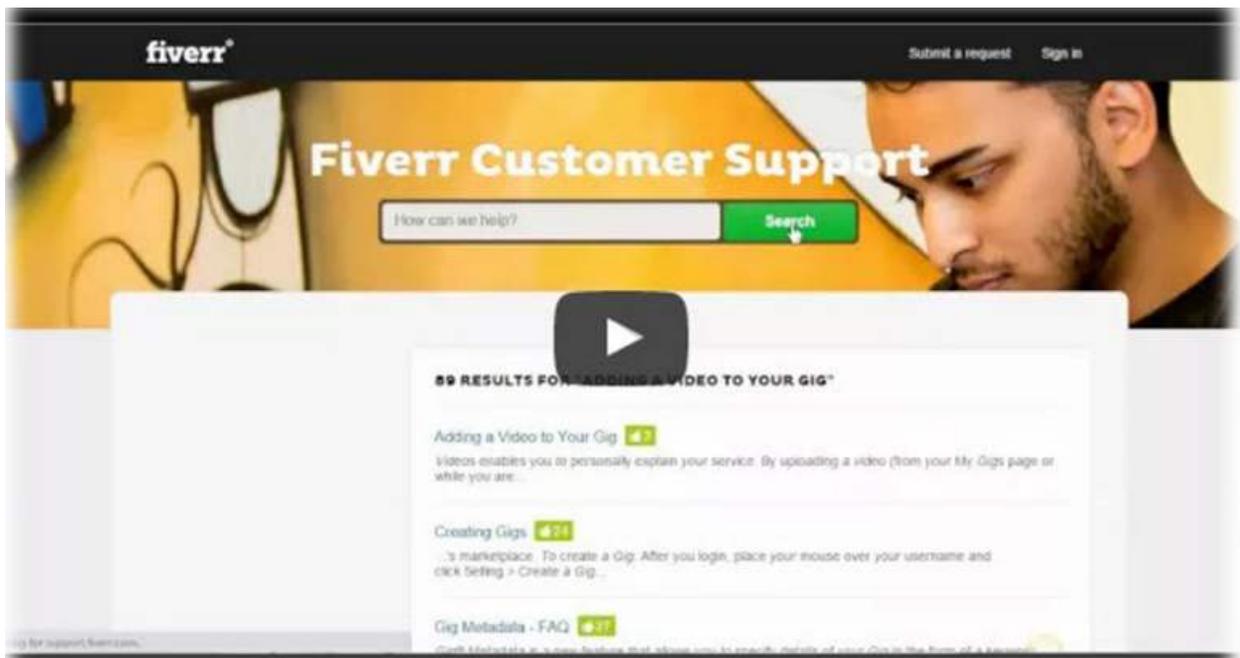

“Reach out to your friends, family members, and contacts within your network. Inquire if they require the services you offer on Fiverr. Rather than directly assisting them, encourage them to place orders for these services on Fiverr. This way, you can receive 5-star ratings and feedback from them. Once this is achieved, you'll witness an influx of orders, and Fiverr may also start promoting your gig to potential buyers. This approach will undoubtedly lead you to success on the platform. 😊

This way you will have your first order right away and you will be sure to get a positive review that will bring you one step closer to getting the consistent orders.

Adding a Video to Your Gig (Part 2)

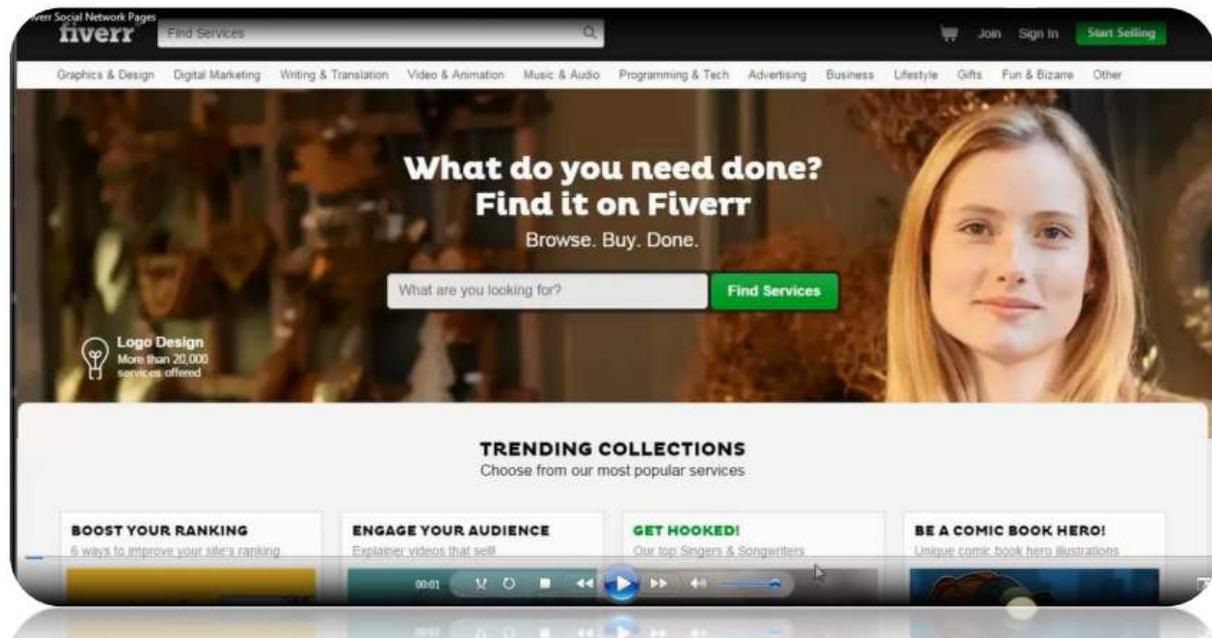

It is imperative that you add a video during the creation of your gig process to market your gig properly and dominate it.

Click on the image below to watch the video on how to get help from fiverr Customer Support Team and some neat tricks.

Additional Trick to Market Your Gig:

Click on the image below to watch the video for more Marketing Tricks

Repeat Customers & Asking For Reviews

If you want to become really successful on fiverr then keep that suggestion in mind.

Provide excellent quality service to your buyers and make them repeat customers So you can get paid over and over again from the same client without lifting a finger to advertise your gigs to them.

After delivering your gig, always ask for the review. Ask them if they like your service please provide me with a positive review and mention to them that you will always be there for them whenever they need your help.

Tip:

Here is a tip on how to ask for a Review. If you think my service exceeded your expectations I will really appreciate you for leaving me a positive feedback.

It will help me to improve my services on fiverr and the rest of the community will also benefit from your review.

Tip Gig: I will highly recommend you to create a separate Tip Gig, Many buyers are very generous and if they really like your services they will tip you as well.

When I was new on fiverr and I had no idea about the tip gig then one day I was on fiverr community page there was a post over there regarding creating your tip gig.

As soon as I finished reading the post I quickly created a tip gig and so many buyers just went ahead and started giving out tips after I delivered my order so don't let this opportunity pass by to grab some extra cash.

And another great thing about Tip Gig is that you get an outstanding positive review as well from the buyer which is one of the crucial factors for being successful on fiverr.

Courtesy always wins, be nice and courteous with them and you will win the repeat buyer for many years to come.

More Tips for Growing and Dominate on Fiverr

If you follow along and will take meaningful actions you will not only make money on fiverr you will eventually start dominating.

You now have everything to make full use of the fiverr opportunity and below I am going to provide some more useful tips to give you more **Fire Power** so you enter in fiverr arena like a superstar!

Make attractive images for your gigs:

The more eye-catching your gigs' images are, the more chances you have to increase volume of sales.

Choose keywords more relevant: Why? Actually, Fiverr is like Google somehow. If you take a look at the search in Fiverr, then you will see it is quite the same with Google. So you should focus on relevant keywords in the Title, Description and Keywords section. This will give you more chances to make your gigs be displayed to potential buyers.

A video can turn your whole life: Why? Fiverr officials also strongly recommend making a video for your Gigs. And buyers trust more on your gigs. This will increase your chance to have more sales at 80%-90%

Ask your buyers for positive feedback:

If you want to make your gigs more popular and attractive, you should ask your buyers to post positive feedback and good rating when you finish your tasks

Submit your gigs to Social Networks:

If you have time, share every gig of yours to Social networks for more Exposure.

A video can turn your whole life: Why? Fiverr officials also strongly recommend making a video for your Gigs.

Try to add your images, videos and everything to your profile so it will prove that you provide quality gigs.

Be fast with your reply, Customers love prompt responses from sellers.

Add all the possible relevant tags, because buyers can find you faster and easier.

Add as many gigs as you can, so by doing this, you can have more chances to get more sales.

Inspiration Matters the Most:

In this final section of my eBook I would like to present some success stories of fiverr sellers. Their stories will inspire you

and give you the belief and final push to get up and running so you can get the financial freedom and live the lifestyle you ever wanted in your life.

[AALIYAAN](#)

My Fiverr Journey

I belonged to a community full of tech gurus from Pakistan and India.

Right after Fiverr launched, there was a thread talking about it. I signed up right away, but at first, I couldn't find anything that worked for me, and I didn't sign back in for almost two years.

Then one day, I went back to the site and was astonished at how it had grown. I browsed through different categories and was amazed at the talent and services people were offering.

I immediately decided to give it a try. I created my first Gig® on YouTube promotions and got my first order the same day!

Later on, I started offering different services, and when I had developed strong coding skills, I created my WordPress Gigs.

It took me some time to flourish, but I am proud to be #1 in WordPress and a Top Rated Seller.

When the Packages feature was announced, I did not realize how easy it would make my life.

For example, I was enjoying a vacation in Dubai and did not want to put in my regular 8-to-10 hours online.

I decided to give Packages a try and started offering a packaged service at three times my basic price. Since I was on holiday, I wasn't concerned about the number of sales at that time, but within a week

I was amazed to find my revenue shooting three times higher. While my workload was reduced from 10 hours per day to just two to three hours per day.

What I love about packages is that I'm getting clients who are willing to pay more for quality work, so while the total number of orders has decreased, the value of each order is much higher.

Because of this, I've broken my earnings record on Fiverr while also having more time to spend with family. That is the most amazing feeling!

My Tips for Success:

Focus on quality rather than quantity.

Always over-deliver to make your buyers want to come back to you over and over.

I have never had to promote my Gigs because the exceptional quality of my work makes my clients happy to recommend me to their friends and other companies they are connected with.

In short, over-delivery and quality are the keys to achieving success on Fiverr and with Packages.

For beginners, you must be creative with your Gigs in any category.

You probably won't find something completely new to offer (hats off to all the talented people on Fiverr!), but you can be different in how you offer your Gigs.

Make them unique in terms of your Gig image and description, and use a video – it really helps a lot.

Also, keep an eye on your competitors. If you are serious, it may take you a few months, but trust me, you will find success.

I also encourage beginners to regularly check the community forums. You will find several useful tips to polish your career

on Fiverr. Recently, we had an official Fiverr event in Lahore, and it was absolutely amazing!

Fiverr Has Changed My Life

I don't have to worry about a 9-to-5 job, and I am my own boss now. Fiverr is my only source of income, yet I am the proud owner of a house and a couple of cars, even though I am still very young.

I am also about to start my own IT company, and I owe it all to Fiverr. I hope everyone out there finds success on Fiverr and gives this community even more reasons to flourish.

C And A

Finding Fiverr

We discovered Fiverr while searching the Internet for a new way to work from home and not have to have fixed work hours or days.

It took just a few days to sell our first Gig. Today, we earn about 55% of our income on Fiverr, which helps pay for our expenses and enables us to travel. The last time we were in New York, we visited a couple we met through Fiverr, and we became good friends. That is something special that Fiverr gave us.

Fiverr is an important part of our life

It sets us free from having to search for clients. Because we get good reviews, clients come to us.

Fiverr also allows us to work more freely from home, at any time, on any day. This has given us more free time, which we can use as we like.

For example, we can take a day off whenever we want and do some extra work the day after. This also allows us to take short trips whenever we want.

We are even thinking about going on a trip for a month and working a few hours a day no matter where we are at that moment. All of this thanks to Fiverr!

[DONALD JR](#)

I was desperate to produce some extra cash in a non-traditional way.

I had an entrepreneurial spirit but had been only minimally successful at network marketing, monetizing a blog, and working part-time jobs.

Then Fiverr popped up in an internet search! My first Gig I did a deep personal inventory of what came natural to me.

I enjoy reading, speaking, and creating.

I used to play around on a microphone, doing silly commercials and promos for friends and business partners, but I had never before really focused and committed my time, effort, and heart to serving the world with this talent.

I decided that recording voice overs on Fiverr would give me the vehicle to bring stories and messages to life by speaking into a microphone!

I sold my first Gig within four days of posting it. Since then, I've used Twitter and videos on YouTube to promote my Gigs. My buyers, or family as I like to call them, range from mothers looking to record a birthday message to their children to international online radio stations looking for a "Station ID.

Where I am now

80% of my business income comes from Fiverr, and it's amazing! Over the years, I've made close to \$88,000 on Fiverr, and because of it, we've been able to pay off my college loans and take some great getaways. We are even closing on our first home in December!

How to achieve success?

I believe my effectiveness on Fiverr boils down to three things.

Treating each person as if he or she is the most important

person in the world.

Caring about my craft and always trying to get better.

Keeping a long-term perspective.

I'm constantly putting myself in a position to continue growing as Fiverr grows by over-delivering in value, treating clients with respect, and making sure that I'm a contributor to the Fiverr community.

I love being a part of Fiverr!

The community forum is an amazing resource that empowers sellers and buyers, and it keeps getting better with the amount of articles, tips, and stories.

It is Fiverr's dictionary, encyclopedia, and thesaurus all rolled into one.

Fiverr has had a huge impact on my life

My wife and I have become debt-free. I've become a better communicator and businessman. And as a middle school teacher, I've been able to show my students that school is only a stepping stone and that their ability to be successful depends on their contribution to the world, not just the knowledge in their heads.

Conclusion & Final Thought to Build a Life Changing Business & Live Your Dream Life.

Remember even though this book gives you everything to start and dominate on fiverr and live the lifestyle you always wanted but you will have to take meaningful and positive actions to make it happen!

You will have to take matters in your hand and start pursuing your dream aggressively.

Do it Now and make it happen and I can't wait to hear your success story.

Let me end with the following quotes to give you one final boost to make it happen!

“Success is not Accident it is hard work Perseverance learning studying and sacrifice”

“There is No Elevator to Success You Have to Take The Stairs!”

“Life Begins at the end of your comfort zone”

“Success doesn't happen overnight keep your eye on the prize and don't look back “

And Finally

Believe in Yourself

To Your Success
